

TRAINEE PROJECT ACCOUNT ENGINEER

JOB OPENING DATE: 19TH OCT, 2009

LOCATION

Jaivel Europe Limited, Mansfield - UK

JOB DESCRIPTION

Your prime responsibility will be to understand the work given by the senior project account engineers and execute the same using the variety of bespoke tools provided and Industry leading software packages.

We will provide Basic / Advance training for the required period of time, based on your expertise & capabilities.

Your eventual goal should be to take final responsibility and understand each individual customer's requirements and based on that, finalise the full manufacturing process including: selection of machine tools, design of fixtures, selection of cutting tools and CNC programming for the project.

You will then either be able to execute the projects alone or delegate to a team of engineers and take final responsibility for the execution and good governance of the project.

You will primarily be based in the UK at our Mansfield Office, but there will be the necessity to perform activities on customer sites within the region and occasionally in other areas of the UK. Some International travel will also form part of the role.

QUALIFICATION/EXPERIENCE

You are a good communicator with a foundation of knowledge for manufacturing complex aerospace components. Your career path to date could possibly include, manufacturing, with time spent on the shop floor and/or experience in Planning, Programming and Manufacturing Engineering.

CONTACT

Please forward your resume to us at careers@jaivel.com, & we will be in touch with you at earliest.

####

ABOUT JAIVEL

Jaivel is a specialist provider of Knowledge Process Outsourcing (KPO) services to the Aerospace and Power Generation Industries and delivers best-in-class solutions for engineering manufacturing processes with the added capability to supply complete turnkey packages, including design-make of work holding solutions.

As a leading supplier of End to End Engineering Solutions, Jaivel helps its customers achieve superior service performance, through efficient implementation of technology and innovation. The first KPO Service Centre outside of India, was formally established in the UK in 2005, and has subsequently developed robust workflow processes to deliver rapid response digital engineering solutions to a growing list of prime and tier one clients.
