

PROJECT ACCOUNT LEADER

JOB OPENING DATE: 2010

LOCATION

Jaivel Europe Limited, North West - UK

JOB DESCRIPTION

You will be responsible for leading projects where the core activity is the provision of Digital Manufacturing Solutions for our Aerospace component machining customers.

You will take responsibility for consulting with our customers' design and production engineers in order to achieve the most efficient and cost effective method of producing the highest quality product possible within agreed standards.

You will Liaise with internal customers and be able to confidently delegate to a team of multi-disciplinary engineers, taking full responsibility for the execution and good governance of your part of the project whilst ensuring timely support to other functions within the business and the project as a whole.

You will primarily be based in the UK at our Mansfield Office, but there will be the necessity to perform activities on customer sites within the region and occasionally in other areas of the UK. Some International travel will also form part of the role.

QUALIFICATION/EXPERIENCE

- Degree or HND in Mechanical Engineering or similar
- Ability to interpret technical specifications and complex manufacturing drawings
- Practical experience of "State-of-the-Art" machining preferably within Aerospace
- Experience in using one or more of the major CAD/CAM platforms
- Proven project management and problem solving skills
- Technical competence, proven within a project-driven environment
- Excellent leadership and interpersonal skills
- Ability and passion to implement "Best-in-Class" processes and procedures
- Good communication skills, both oral and written
- Literate in ICT, demonstrable use of the Microsoft Office
